

Wellington Scaffolding Services

CLIENT SAFETY INDUCTION

Safety is extremely important to us. If you are using our scaffolding, or living in a building that has our scaffold attached to it, it is important that you read and understand this safety card.

IF YOU ARE A TENANT OR A SITE VISITOR:

If you are not the contracted user of our scaffolding all you need to do is simply take a few minutes to look around the scaffold and be aware of any new potential hazards that may exist (i.e. protruding objects or trip hazards). Discuss these with your co-workers, tenants, friends and/or family.

Key things to remember:

- » Do not use the scaffold if you are not the contracted user
- » Do not let children play on or around scaffolding
- » Be aware of any protruding objects and be aware of any contractors working around you
- » Keep a safe distance when walking around scaffolding
- » Call us if you have any questions or concerns – 04 233 0593

IF YOU ARE A CONTRACTOR USING OUR SCAFFOLDING:

Be aware of the following hazards at all times:

- Protruding objects** There may be sharp corners or items that stick out from the scaffold such as tubes or clips. You could bump your head or graze the side of your body, so stay alert.
- Slips/ Trips/ Falls** If you are walking on the scaffold be aware that decks, planks and ladders can become slippery if wet. Be aware of any gaps, walk slowly and be conscious of your footing. Always keep walkways clear and pick up loose items.
- Other people** People above you or below you often pose the biggest risk. Items can be dropped or materials can fall without warning. Wear head protection if required.

Users of our scaffolding must:

- » Only use the scaffold when a current Aculog tag is displayed
- » Visually check the scaffold each day before use
- » Never make any unauthorised alterations to the scaffold at any time
- » Call us immediately to report any unauthorised alterations or missing components
